

Flexiti Financial

Flexiti has reimagined point-of-sale (POS) consumer financing to drive sales for retailers in-store and online, becoming one of Canada's leading private label credit card issuers. Through our award-winning platform, we deliver a POS financing experience across any device that is customer-centric, simple and intuitive. Without the need to integrate into existing POS systems, retail partners can easily offer the same fast and paperless financing solution across all retail locations and sales channels to increase revenue and build loyalty through repeat purchases. For more information, visit www.flexiti.com.

Cloud Engineer

Flexiti Financial is looking for a Cloud Engineer to join its IT Team. Supporting the VP of Cyber Security and DevOps Engineering, the Cloud Engineer will play a critical role in our cloud strategy.

Responsibilities

- Automate the provisioning of AWS environments with Terraform Ansible, and other automation tools to provide fast and reliable services to a rapidly growing customer.
- Design and develop automation workflows, performing unit tests, and code quality measures.
- Run and conduct reviews assessing the overall quality of delivered components using tools such as SonarQube.
- Build and maintain continuous delivery pipelines using Azure DevOps.
- Write scripts and automation using Powershell/Python/Bash.
- Configure and manage data sources like MSSQL, MongoDB, MySQL, Elasticsearch, Redis, etc.
- Create and maintain documentation.
- Identify and drive opportunities to improve automation for the company; scope and create automation for deployment.

Qualifications

- Bachelor's degree in computer science or information technology.
- 3-5 years experience working with information technologies and systems analysis, ideally in the financial technology industry.
- 2-3 years' experience in AWS and Azure.
- Experience with cloud migration initiatives.
- Experience working with OpenStack, including Linux/UNIX.
- Strong awareness of networking protocols, including TCP/IP, DNS, SMTP, HTTP, etc.
- Database experience, including SQL and NoSQL.
- Extensive experience in building CI/CD pipeline.
- Experience with cloud migration process.
- Extensive experience with cloud technology architecture, including Operational Excellence, Security, Reliability, and Performance Efficiency.

- Strong communication skills and ability to work both in a team environment and independently (good command of spoken and written English is mandatory).

What We Offer

Below are just a few reasons why people love working here:

- An opportunity to be a part of an award winning and fast-growing company
- An innovative culture that promotes autonomy and flexibility
- A dynamic team and working environment that provides ongoing support
- Competitive compensation package commensurate to experience

Flexiti embraces diversity. We are committed to building a team that represents a variety of backgrounds, perspectives, and skills. All qualified applicants will receive consideration without regard to race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, disability, age, marital status, or family status. If you require disability-related accommodation during the application or interview process, simply let us know and we'll work with you to ensure you have a positive experience.
